Brf MUNKHÄTTAN

ENGLISH EDITION

Dear members, an eventful autumn and winter is upon us! Two major projects will be launched: The laundry rooms will be renovated and our electricity infrastructure upgraded. Start-up meetings have just been conducted, and work will begin soon.

Furthermore, remember to turn on the radiators and open the vents above your windows!

All the best, The Board

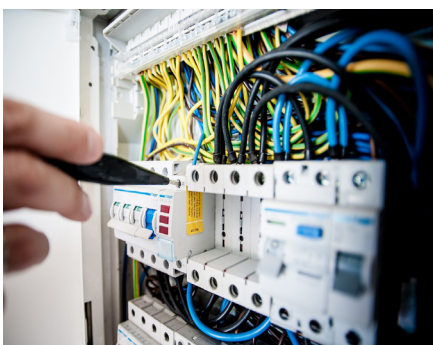

THANK YOU FREDRIK, WELCOME MARCUS!

It is with mixed feelings that we say goodbye to our vicevärd Fredrik, who moves on to new challenges at HSB. We thank him for everything he has done for us, and wish him the best of luck in his new role.

We would also like to take the opportunity to welcome our new vicevärd: Marcus Hedenskog. Marcus has a degree in real estate enterprise, and has been the chairman of his own association for seven years.

We hope you give him a warm welcome!

JOINT ELECTRICITY PROJECT

EcoGuard AB has been commissioned to upgrade our electricity infrastructure. Work will be conducted V.43-47, and will result in power outages. The goal is to minimize hours without power. More info will follow.

NEW PRIMARY CONTACT NUMBER

A new primary number will be used for reporting problems, invoice questions, requesting contact details, and other general questions. The number is: 010 442 30 00, and is manned by HSB switchboard, which will put you in contact with the right person.

UPDATE: LAUNDRY

At the moment, individual plans for each laundry room are being drawn up. As soon as that's finished, work will begin. Whilst your laundry room is being renovated you are advised to book heavy duty laundry room. More information on our website, under the tab "Att bo i Munkhättan".
